"I Don't Feel Good"  
That is what a lot of people tell us.  
Usually they are only complaining.  
Rexall Orderlies  
We know this positively. Take one  
and you will feel better.  
Sold only by us, 10 cents.

**HILLS,**  
Jeweler and Graduate Optician.  
Lowest Prices in Oxford County.

**Indiana Man's Kidney  
Troubles Disappear**  
"After suffering many months from  
kidney trouble," writes W. R. Fox,  
of New Britain, Ind., "and after hav-  
ing tried many remedies and prescrip-  
tions, I purchased a box of Policy  
Kidney Pills. They not only did  
more good than any other remedy  
I had ever used, but they positively  
cured my kidney trouble. Other mem-  
bers of my family have used same  
with similar results."  
From every state in the Union com-  
munications telling of satisfactory  
results from Policy Kidney Pills.  
When the kidneys are clogged up,  
get sluggish, and filter  
and strain out of the blood only part  
of the poisonous waste matter, the  
balance remains and circulates  
through the system, causing acid forms,  
and swollen, painful joints and mus-  
cles are the result.  
Policy Kidney Pills cleanse and tone  
up the kidneys, so that backache,  
stomach, nerve, muscle, aching  
joints, annoying bladder disorders  
and irregularities soon disappear.  
A. E. SHURTLEFF & CO., South Paris.

Instruction Books, Player pianos**  
always in stock at prices  
that are right.  
Send for catalog.

**W. J. Wheeler,**  
Billings Block, South Paris.

### READ WHAT ONE MOTHER WROTE

Mother can't always tell if  
her children are healthy, feverish and  
restless, but if worms are suspected  
it is wise to find out at once. A small  
dose of "L. F." Atwood's medicine  
given at bedtime, and another in the  
morning before the child eats any  
breakfast, will show whether or not  
worms are the cause of the trouble.  
Read what one mother wrote:

"I find the 'L. F.' Atwood's Medicine  
indispensable for jaundice, from which it  
relieves me. I give it to my little ones  
when they are sick. I will soon chase their  
troubles away and leave them laughing again."  
Mrs. MELBOURNE AXES,  
R. F. D. No. 41.

Buy a 35c bottle for your nearest  
store, or write today for a free sample.  
FREE—On receipt of a yellow outside  
wrapper with your opinion of the medicine,  
we will send one of our Needle Books with  
a good assortment of high grade needles useful  
in every family.

### AMONG THE FARMERS.

"REFLECTED THE FLOW."

**Short Winter Courses.**  
Announcement is made of the short  
winter courses given by the College of  
Agriculture at the University of Maine at  
Orono, Jan. 3 to Feb. 15, 1916. These  
courses offer students an opportunity to  
pursue a short but practical course of  
study in the principles and practices of  
modern agriculture.

**ARRANGEMENT OF COURSES.**  
For the convenience of those who may  
desire to attend lectures upon a wider  
range of subjects than afforded by a  
single course, the courses have been so  
grouped that general agriculture and  
dairying will occur at the same time and  
these will be followed by the courses in  
horticulture and poultry management.  
This arrangement will allow the student  
to attend some of the principal lectures  
given outside of the courses in which he  
is registered.

This plan has been followed for several  
years and the results have been so satis-  
fying that the same scheme will be con-  
tinued for the coming year.

**COURSES FOR HOLDING COURSES.**  
The courses in general agriculture and  
dairying will open Monday evening,  
Jan. 3, at 7:30 o'clock, in Winslow  
Hall, and continue for four weeks.

The courses in horticulture and poultry  
management will open Monday evening,  
January 31st, and continue for three  
weeks.

**REGISTRATION.**  
The registration of students will occur  
January 31st and January 31st, at the  
office of the Dean of the College, Winslow  
Hall, where students should report im-  
mediately on arrival.

**CERTIFICATE.**  
Upon the completion of one of the  
short courses in a satisfactory manner,  
the student is given a certificate stating  
the course pursued.

**SPECIAL LECTURES.**  
During the short courses one or more  
special lectures will be given each week.  
These lectures will deal with such im-  
portant subjects as agricultural econom-  
ics, rural credit, boys' and girls' agricul-  
tural clubs, farm demonstration work,  
agricultural education, rural extension  
service. Included in the list of speakers  
for the special lectures will be suc-  
cessful farmers, experts in various lines,  
and lecturers connected with the Uni-  
versity.

**ADMISSION.**  
Any person fifteen years of age or  
over will be admitted to attend short  
courses without examination. It is very  
desirable, however, that the College of  
Agriculture shall have accurate information  
as possible concerning the student's  
background, and for this purpose the  
student will be asked to fill out a form  
in order that satisfactory accommodations  
may be provided.

No tuition or fees of any kind are  
charged. Board and room may be re-  
quired for \$4.50 to \$5.50 a week. Stu-  
dents are not required to purchase text  
books. In the course in dairying each  
student will be expected to bring with  
himself two white suits. These suits  
will cost about one dollar each and may  
be obtained in Orono if the student de-  
sires.

List of boarding places will be sup-  
plied students on their arrival, or accom-  
modations will be engaged in advance  
for those who so desire.

**COURSES.**  
The courses in dairying and general  
agriculture are designed to give butter-  
makers, milk dealers, milk producers,  
and general farmers a practical training  
as possible in the four weeks. The  
work is exceedingly practical and it is  
of a nature that those who take the  
courses put the principles learned to  
immediate practical use upon returning  
to their homes.

The object of the short courses in Horti-  
culture and Poultry Management is to  
demonstrate to the student the practical  
application of the principles of agricul-  
ture, and to give him a practical knowl-  
edge of the most approved modern orchard,  
small fruit, gardening, and floriculture  
practices and methods.

The courses in Poultry Management  
aim to give special attention to the vari-  
ous breeds and varieties of poultry, hous-  
ing, feeding, incubating, and marketing  
of poultry for market, and the various  
phases of the poultry industry that will  
be of value to the practical poultryman.

**EQUIPMENT.**  
The equipment of the various depart-  
ments will all be available for short  
course work.

The dairy building is well equipped  
with the necessary machinery, apparat-  
us, and appliances for undertaking  
practical demonstrations. Here the stu-  
dents learn to separate milk, prepare  
cream, churn butter, and prepare the  
butter for market as in a com-  
mercial plant, under the direction of com-  
petent instructors.

The horticultural department is com-  
posed of the four leading breeds and num-  
bers about sixty head. The average milk  
production is very high. The feeding and  
management records are available for  
instructional work. The other live stock  
upon the farm, consisting of horses,  
sheep, and swine, offer splendid oppor-  
tunities for the student to familiarize  
himself with different breeds and types.

The farm crops laboratory and ma-  
chinery building are well equipped for  
the use of short course students.

The horticultural laboratories and the  
greenhouses furnish excellent opportu-  
nity for demonstration work accompany-  
ing the necessary practical instruction in  
horticulture. All the facilities of the  
department are placed at the disposal of  
the short course students in such a man-  
ner as to make the courses of the great-  
est educational value.

In the poultry courses, the incubator  
buildings, the brooder houses, the fatten-  
ing pens, and the various other equip-  
ment are placed at the disposal of the stu-  
dents for their practical instruction in  
poultry management.

**REQUIREMENTS IN AGRICULTURE.**  
The College of Agriculture offers:  
Four years curricula in Agronomy,  
Animal Husbandry, Horticulture,  
Poultry Husbandry, Forestry, Home  
Economics, and for Teachers of Agriculture.

Two years courses in Agriculture,  
Home Economics.

Catalogue descriptive of the above  
will be forwarded on request.

The college also offers each year a  
short course of one week's duration  
for "Farmers' Week" writing. Several  
hundred people attend annually.

For information concerning either the  
Short Winter Courses, the regular curri-  
culum, or Farmers' Week, write to:  
NORTH DEAN, College of Agriculture,  
University of Maine, Orono, Maine.

The trouble with many people is that  
they don't demand canvas-back duck  
when they can afford only bag and hom-  
iny, and trying to get the duck too soon  
prevents their enjoying it very long.

If you borrow a wrench or other tool  
out of the box of any farm machine, re-  
turn it when you are done with it. That is  
the way.

With water drainage below, ammonia  
loss above, and fire-fighting in the  
middle, many manure heaps are not  
worth hauling.

Scrape up the loose manure around  
the barn and stable. It is very rich and  
worth saving.

Peter Tumbledown says that he is  
cracking up at practicing it—why, he  
just draws the line there. That is too  
much for him.

### Keep Clean and Disinfect.

It is a well known fact among success-  
ful live stock men that it is very impor-  
tant to keep clean the barns, pens, and  
yards where the animals are kept. What  
is the meaning of clean? Well, there  
are many conceptions of cleanliness. Many  
farmers think if they keep their barns  
and yards free from manure that they  
are clean. This is true to a certain  
extent, for it is important to keep the  
premises free from manure and other  
refuse. Others will hold that not only  
the walls and ceilings of the barn must be  
kept free from cobwebs, dust, and  
like in order to have a clean barn, but  
that whitewashing once a year is neces-  
sary. When the various buildings about  
the farm are kept clean, not only  
better homes are provided for the stock,  
but work is easier and more inviting. Being  
clean is not a bad idea. It is a dollar and  
cents proposition.

While cleanliness about the farm  
premises is highly important and cannot  
with safety be ignored, yet there are  
times when disinfecting is a better and  
more reliable and feasible practice.

When the country was first settled and  
there were but few farm animals, the  
necessity for disinfecting was not great.  
At that time the stock was not so  
large and the diseases which were com-  
mon were not so dangerous. But now  
the discovery of these germs by  
Pasteur, the great French bacteriologist,  
new methods of combating diseases  
have come into use.

It is well known now that most, if not  
all, diseases are caused by germs. Germs  
cannot have tuberculosis unless ex-  
posed to tubercular bacteria. They cannot  
have cholera unless infected with cholera  
germs; nor foot and mouth disease,  
unless they come in contact with the bac-  
teri which cause the disease.

Hogs do not have hog cholera unless  
they are exposed to the germ that pro-  
duces this disease. So it is with the  
many other diseases which claim their  
victims. It is plain that one of the  
factors in keeping live stock healthy is  
to destroy the bacteria, and disinfectants  
do this.

There are various ways of destroying  
bacteria. In milk they are destroyed by  
heat. Sunlight is the most universal  
disinfectant. It is the most effective  
and it is the most reliable.

### State Tuberculosis Sanatorium.

The present legislature of the State of  
Maine passed an act entitled "An Act to  
Provide for the Care and Treatment of  
Tubercular Persons" by the terms of  
which the Governor was to appoint a  
board of five persons who should acquire  
by purchase, lease or otherwise, a suit-  
able and safe location for a sanatorium  
and should be adapted for their purpose,  
and the sum of \$75,000 was appropriated  
for the use of the trustees.

The members and trustees of the  
Maine State Sanatorium Association, be-  
lieving that by this act the state of  
Maine was fully committed to the  
proper care and treatment of suffer-  
ers from tuberculosis, have transferred  
to the state the sanatorium at Hebron,  
Maine, together with all of its equipment  
and buildings.

This sanatorium is recognized as one  
of the most complete and efficient in the  
country, and at the present time is in  
care for about 85 patients. It has reach-  
ed its present state of efficiency after  
many years of intelligent, constant and  
billionous labor bestowed upon it by the  
Nichols, aided by the trustees of the in-  
stitution.

The property thus acquired by the  
state, which included real estate and val-  
ued at about \$20,000, and accounts receivable  
to the amount of \$10,000, and endow-  
ment of \$10,000, and a total of about  
\$40,000. In addition to the above the  
income of the Chamberlain Endowment  
Fund of \$200,000, also may be used to  
the benefit of the state, but this will be  
determined later.

In payment for the above, the state  
has assumed all current outstanding  
debts of the sanatorium, which included  
about \$12,000, and has paid to its trust-  
ees the sum of \$15,000, which will be  
used for the purchase of land and build-  
ings, and for the maintenance of the  
sanatorium, and for the payment of the  
debts of the sanatorium, and for the  
maintenance of the sanatorium, and for  
the payment of the debts of the sanatorium,  
and for the maintenance of the sanatorium,  
and for the payment of the debts of the  
sanatorium, and for the maintenance of  
the sanatorium, and for the payment of  
the debts of the sanatorium, and for the  
maintenance of the sanatorium, and for  
the payment of the debts of the sanatorium,  
and for the maintenance of the sanatorium,  
and for the payment of the debts of the  
sanatorium, and for the maintenance of  
the sanatorium, and for the payment of  
the debts of the sanatorium, and for the  
maintenance of the sanatorium, and for  
the payment of the debts of the sanatorium,  
and for the maintenance of the sanatorium,  
and for the payment of the debts of the  
sanatorium, and for the maintenance of  
the sanatorium, and for the payment of  
the debts of the sanatorium, and for the  
maintenance of the sanatorium, and for  
the payment of the debts of the sanatorium,  
and for the maintenance of the sanatorium,  
and for the payment of the debts of the  
sanatorium, and for the maintenance of  
the sanatorium, and for the payment of  
the debts of the sanatorium, and for the  
maintenance of the sanatorium, and for  
the payment of the debts of the sanatorium,  
and for the maintenance of the sanatorium,  
and for the payment of the debts of the  
sanatorium, and for the maintenance of  
the sanatorium, and for the payment of  
the debts of the sanatorium, and for the  
maintenance of the sanatorium, and for  
the payment of the debts of the sanatorium,  
and for the maintenance of the sanatorium,  
and for the payment of the debts of the  
sanatorium, and for the maintenance of  
the sanatorium, and for the payment of  
the debts of the sanatorium, and for the  
maintenance of the sanatorium, and for  
the payment of the debts of the sanatorium,  
and for the maintenance of the sanatorium,  
and for the payment of the debts of the  
sanatorium, and for the maintenance of  
the sanatorium, and for the payment of  
the debts of the sanatorium, and for the  
maintenance of the sanatorium, and for  
the payment of the debts of the sanatorium,  
and for the maintenance of the sanatorium,  
and for the payment of the debts of the  
sanatorium, and for the maintenance of

For Severe Conjunctivitis, and all Chronic Eye Diseases.

Here and There.

A writer in the Boston Herald calls attention to the fact that it costs \$20,000 to graduate a cadet from West Point and make an army officer of the first grade.

While the difficulties encountered by the newspaper headline writer may justify an occasional use of abbreviations, they somehow always jar the artistic consciousness. But a leading newspaper the other day, in which Maine is abbreviated in order to fit the line, ought to be pleasant reading for every one who takes it to himself, for it reads, "Rockefeller money for Educational Purposes. Five Thousand for Me."

According to the timely comment of an exchange, Americans who resent the impatience that the dollar is the main incentive of our countrymen's lives should find cheer in the example of Orville Wright. Mr. Wright has given up the idea of making a fortune, sold out his interests and retired to engage in experimental work. And all he has on which to live is about a million dollars which he received for his said interests.

In a divorce case in Cumberland County, in which both husband and wife had brought libels, after a two days' hearing, the divorce was granted to both parties. It seems to be the irony of fate that divorce should be unobtainable when both desire it, while it is so difficult to get if only one applies for it.

It's an axiom in politics as in other games, that everybody can't win, but all parties express themselves satisfied with the results of last week's elections.

Last Week's Elections.

Maine interest in the elections held Tuesday of last week was given up to the question of the result in Massachusetts.

Next in interest, if not transcending the Massachusetts result, was the vote of several states on the question of woman suffrage. That this was the case is shown by the fact that the result in Massachusetts was the subject of much discussion in the State.

Next in interest, if not transcending the Massachusetts result, was the vote of several states on the question of woman suffrage. That this was the case is shown by the fact that the result in Massachusetts was the subject of much discussion in the State.

Next in interest, if not transcending the Massachusetts result, was the vote of several states on the question of woman suffrage. That this was the case is shown by the fact that the result in Massachusetts was the subject of much discussion in the State.

## THE OXFORD BEARS.

### THE DOINGS OF THE WEEK IN ALL SECTIONS OF THE COUNTY.

#### Paris Hill.

First Baptist Church, Rev. G. W. F. Hill, pastor. Sabbath evening service at 7:30. Prayer meeting at 8:00. The church will hold a social on the 1st Sunday of the month at 2:30. The church will hold a social on the 1st Sunday of the month at 2:30.

Mrs. Ellen S. Carter, who has been with Bethel relatives for a time, returned to Paris Hill for a brief stay last week and has now gone to her winter home in Montclair, N. J.

James Thompson of Boston is the guest of his mother, Mrs. J. N. Thompson.

Mrs. Columbia Paris and Miss Helen D. Paris have greatly improved the exterior appearance of their home by a new dress of white paint with green blinds.

Following the advice of a consultation of physicians, Mrs. Hubbard will submit to a serious surgical operation to be performed at the Hubbard House early this week.

Mrs. and Mrs. Arthur B. Briggs of Auburn spent a few days the past week with Mrs. E. A. Stowe and Mrs. F. B. Hammond.

Mrs. and Mrs. John Pierce returned Monday from their visit to Springfield, Ohio.

Mrs. George F. Hammond started this week for Augusta, Ga., where she will spend the winter.

Mrs. Lulu Daniels has been taking a vacation from her employment at the Hubbard House and has visited friends in the city.

Miss Alice Benjamin and Miss Louise Leveitch left last Saturday. Miss Benjamin goes to Augusta, Ga., and Miss Leveitch will remain in Portland until after Christmas, then go to New Orleans for the winter.

The Sunbeam Club will meet with Mrs. Augusta Hamblin Thursday of this week.

At the parent-teachers meeting Monday evening, Nov. 1, the following officers were elected:

Pres.—H. D. Hammond.  
Vice-Pres.—J. M. Thayer.  
Treas.—Mrs. E. A. Cummings.  
Sec.—Mrs. E. B. Curtis.  
Entertainment Com.—Mrs. H. W. F. Hill.  
Ex. Com.—Mrs. E. B. Curtis, Mrs. Roscoe Marston.

This association was formed under the name of Paris Hill School Association, and is to meet at the school house on the second Monday evening of each month at 7:30. The object is to bring into closer relations the home and the school, that parent and teacher may cooperate intelligently in the education of the child. The next meeting will be held on Monday, Nov. 8, and a general assembly will be held on all who are interested in the school.

## Bethel.

### THE DOINGS OF THE WEEK IN ALL SECTIONS OF THE COUNTY.

#### West Paris.

Mrs. Ann Rowell died at the Central Maine Hospital, Lewiston, Wednesday, Nov. 4, from the effects of an operation for the removal of a tumor. The operation seemed successful, but she did not have sufficient vigor to rally, and heart failure was the direct result. Mrs. Rowell was born in Paris, Feb. 11, 1845. She was the daughter of Sylvanus and Esther (Benson) Dunham. A brother, Samuel W. Dunham, is the only remaining member of the family, five having died within the past six years. She married James M. Rowell, and one son, Alton, was born to them. After Mrs. Rowell's death Mrs. Rowell made her home in the family of her brother, the late W. W. Dunham. Mr. Dunham died a year ago, but Mrs. Rowell and her son have continued to live with Mrs. Dunham. She has been very devoted to Mrs. Rowell, spending most of the time at the hospital with her, during her illness there.

Mrs. Rowell has been a member of the Baptist church for thirty years. She was a kind, amiable, and respected Christian woman and respected by all who knew her. Much sympathy is expressed for her son Alton and all mourning friends.

The funeral was held at her home Friday afternoon, Nov. 5, at 2 o'clock. It was a friend and former pastor, officiating, assisted by Rev. Sarah Robinson, pastor of the Baptist church, and Rev. S. B. Hildreth, pastor of the Methodist church. There were beautiful flowers, among which were many daybreak lilies, of which she was very fond. One spray of Mrs. Rowell's name was "Mother" from her son was especially pretty. Dana Grover sang two solos very impressively. Interment was at North Cemetery.

The Good Will Society of the Universalist church will hold their annual sale and chicken pie supper on Wednesday, Nov. 10.

The Ladies' Aid of the M. E. church held their sale and entertainment Tuesday afternoon and evening, Nov. 3. The annual meeting of the church was held on the 17th of the month. The Boy Scouts presented a very interesting entertainment at Centennial Hall Wednesday evening, Nov. 4.

Ring, the lively stable man, is building a piece on to his barn on the farm recently bought at West Bethel. The addition is 60 feet long and 10 feet wide, for a tie-up. J. S. Burbank is doing the work.
